

Using Power Maths and White Rose Maths together

Power Maths was created by Pearson in partnership with **White Rose Maths** to spark curiosity and excitement and help you nurture confidence in maths. The new Power Maths: White Rose Maths editions have been developed in tandem with the new White Rose Maths schemes of learning and share the same progression, making it easy for teachers to combine the resources wherever they want to.

Power Maths gives you everything you need for your lesson, in digital and print format, so you as the teacher can concentrate on how you explain the key concepts and build firm understanding. And because they are designed to be used together, with the lessons and steps fully aligned, you can get the best from both resources!

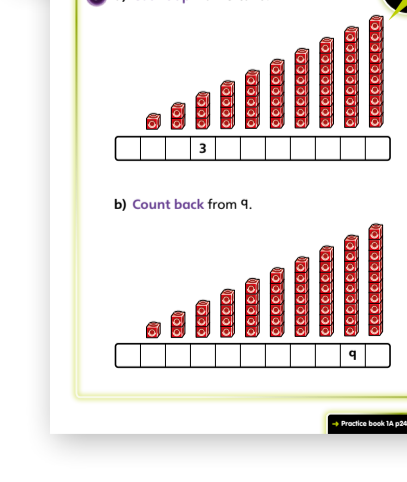

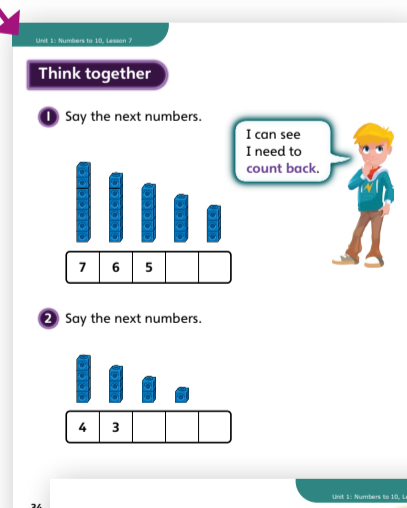

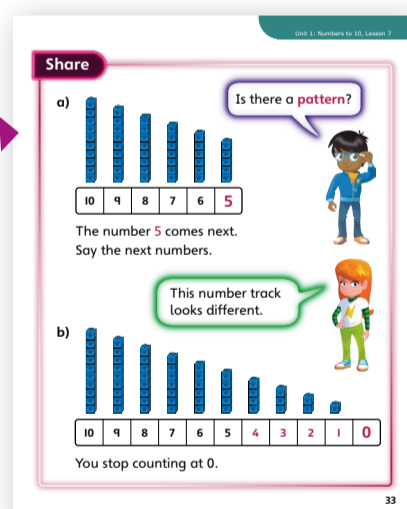

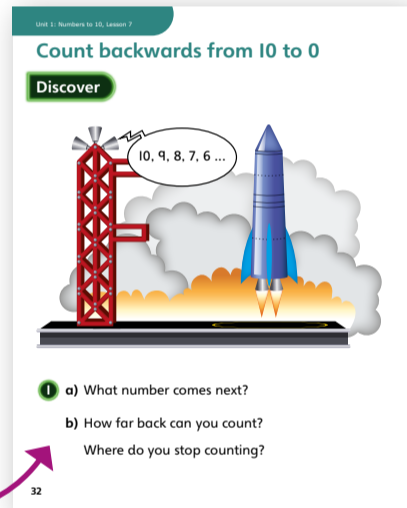

There are lots of options for using **Power Maths** and **White Rose resources** together flexibly!

Power Maths lessons are designed to spark curiosity! **Why not take a look?**

Power Maths resources and White Rose Maths resources

Yearly overview	Power Maths and White Rose Maths share the same yearly overview
Preparing to teach	Use Unit Video and Teacher Guide alongside Scheme of Learning
Starter activity	Power Up for general fluency or Flashback 4* for spaced learning
Main lesson	
'Discover'	The (e)Textbook presents a problem in context, which children explore with manipulatives
'Share'	Class discussion using (e)Textbook and interactive Teaching Tools to guide children towards the best pictorial representation
'Think Together'	Guided practice in the (e)Textbook with support gradually reduced ('I do, we do, you do' approach)
'Practice'	Children complete Practice Book pages independently (If you want to add further practice you could build in questions from the Worksheets*)
'Reflect'	Journalling task in Practice Book to encourage metacognitive thinking
Same day intervention	Textbook (same lesson or prerequisite) or Key Learning ideas
For children who are struggling	Strengthen tasks for each unit, Home Learning Videos for each lesson
Extra challenge	Deepen tasks for each unit, Reasoning and problem-solving questions
Maths meetings / fluency sessions	Display Worksheets* or Power Ups
Homework / extra practice	Individual Practice Games and Home Learning Videos
End of unit assessments	End-of-unit checks and End-of-block assessments
Summative assessments	Half-termly Progress Tests with Online Markbook and End-of-term assessments
Ongoing PD and support	Regular blogs and webinars and Topic-based CPD videos*

If you have a subscription you'll be able to access the White Rose Maths premium resources marked with an asterisk*.
